

November 2023, Hautcharage (Luxembourg)

### EmTroniX will participate in Space Tech Expo in Bremen and join a panel discussion!

It has now become a ritual over the years, EmTroniX will be at Space Tech Expo in Bremen from the 14<sup>th</sup> to the 16<sup>th</sup> of November on the Luxembourg Space Agency booth J45.

But this year, Cedric Lorant, the CEO of the company, will contribute to the focus session: *Tech Spotlight: Pursuing Next-gen Microelectronics for Software-defined Smallsats*. He will talk about the latest market trends and how EmTroniX develops its products to answer the need for software defined smallsats.

It is the first time the company has such an opportunity and it will be a unique occasion to show its know-how and experience in terms of New Space product development and its footprint in this industry.

If you plan on going to Space Tech expo, don't hesitate to join Cedric Lorant's presentation on **the 14<sup>th</sup> of November, 13h45**, or to pass by EmTroniX booth, J45, where the EmTroniX team will be happy to tell you a bit more on our products.
